

UNITED COOPERATIVE SERVICES Tariff for Electric Service	Section II	Sheet No. 10
	Revision	Page 19
<u>SECTION TITLE:</u>  RATES AND CHARGES APPLICABLE TO ALL AREAS SERVED	<u>EFFECTIVE DATE:</u>  OCTOBER 1, 2015  LATEST REVISION FEBRUARY 19, 2018	

202.5 Area Light Service.

A. Application.

Applicable Members in accordance with the Cooperative's Service Rules and Regulations for pole-mounted area and street lighting near the Cooperative's electric distribution lines.

B. Type of Service.

Single-Phase service at the Cooperative's standard secondary distribution voltages. Where service of the type desired by the Member is not already available at the point of delivery, additional charges under the Cooperative's line extension policy and special contract arrangements may be required prior to services being furnished.

C. Monthly Rate.

Each billing period the Member shall be obligated to pay the power cost recovery per following charges:

**(1) Mercury Vapor Area Lights – This lighting type is closed to all future/new requests:**

Lamp Type	Lamp Size	kWh per Month	Monthly Charge
Mercury Vapor	175 Watt Class	70	\$9.28
Mercury Vapor	400 Watt Class	160	\$19.02
Power Cost Recovery Factor		Varies Monthly per Tariff Section 203.1	

**(2) High Pressure Sodium (HPS) Area and Street Lights – Standard (not dark sky compliant) – This lighting type is closed to all future/new requests:**

Lamp Type	Lamp Size	kWh per Month	Monthly Charge
HPS	100 Watt Class	40	\$8.44
HPS	250 Watt Class	100	\$17.34
HPS Directional	1000 Watt Class	402	\$41.99
Power Cost Recovery Factor		Varies Monthly per Tariff Section 203.1

	Revision	Page 20
<u>SECTION TITLE:</u>  RATES AND CHARGES APPLICABLE TO ALL AREAS SERVED	<u>EFFECTIVE DATE:</u>  OCTOBER 1, 2015  LATEST REVISION FEBRUARY 19, 2018	

**(3) High Pressure Sodium (HPS) Area and Street Lights – Dark Sky Compliant – *This lighting type is closed to all future/new requests:***

Lamp Type	Lamp Size	kWh per Month	Monthly Charge
HPS-Dark Sky	100 Watt Class	40	\$11.58
HPS-Dark Sky	250 Watt Class	100	\$23.20
Power Cost Recovery Factor		Varies Monthly per Tariff Section 203.1	

**(4) Dark Sky Retrofit Option for standard installation 100 watt high pressure sodium light fixture:**

The Member, at their option, may request the Cooperative to install a cutoff reflector to replace the acrylic refractor on standard installation 100 watt area light fixtures. The installation cost will include the current cost of the cut off reflector at the time of the request plus a service trip fee as specified in Section 204.1.D. The installation cost may be invoiced and paid at the time of the request or may be applied to the Member billing if so requested.

**(5) LED Area and Street Lights – Standard:**

Lamp Type	Lamp Size	kWh per month	Monthly Charge
LED	50 Watt Class	18	\$8.44
LED	100 Watt Class	39	\$17.34
LED	350 Watt Class	132	\$41.99
Power Cost Recovery Factor		Varies Monthly per Tariff Section 203.1	

The actual wattage of each of the Lamp sizes will vary based on manufacturer and light fixture specifications. United, at its sole discretion, will assign a Lamp Size Class to each lamp offered under this section.

The power cost recovery factor is a monthly variable amount, charged on a kWh basis, for purchased power costs as billed by Cooperative's wholesale provider, Brazos Electric Power Cooperative, Inc., its successors or assigns, or other wholesale providers delivering energy to Cooperative for delivery to Member. It being the intent that all power cost invoiced to the Cooperative by its wholesale power provider for delivery to Member shall be invoiced to and paid by Member according to 203.1 of this tariff.

D. Billing Adjustments.

This rate is subject to all applicable billing adjustments.

E. Payment.

Bills are due when rendered and become past due if not paid within 16 days thereafter.

F. Conditions of Service.

The Cooperative shall furnish, install, operate, and maintain the outdoor lighting equipment, including lamp fixtures, luminaire, bracket attachment, and control device on a pole owned by the Cooperative, electrically connected so that the power for operation of light does not pass through the meter for the Member's other usage, at a location mutually agreeable to both the Cooperative and the Member.
