

2021 Energy Innovation Rebate Program Member Application Form

▼ MEMBER INFORMATION

Energy Innovation rebates are available only for qualifying purchases and/or services. The availability of the Energy Innovation Rebate Program is limited and rebates will be processed on a first-come, first-served basis. When funds have been depleted, the Energy Innovation Rebate Program will no longer be available until the next year, pending board approval.

Members must submit this form and required documentation to be eligible for rebates within 60 days of the completion of construction and/or installation. Receipts for every rebate must be submitted with an application!

By signing this form, the member agrees the equipment listed on this form has been selected and installed in accordance with United Cooperative Services' Energy Innovation Rebate Program guidelines. Homeowners and/or contractor(s) understand that prior to issuance of payment, the equipment's efficiency rating will be verified and approved by a United representative using AHRI equipment directories. Homeowners and contractors also acknowledge there is a **\$1,200** cap on the total rebate amount per home. United reserves the right to conduct on-site inspections.

REBATE HOME TYPE: NEW EXISTING
