- 2) establish electric rates to align utility incentives with the delivery of cost effective energy efficiency and to promote energy efficiency investments;
- 3) consider smart grid investments; and
- 4) give co-op members direct written or electronic access and other interested persons limited access to information on time-based electricity prices at wholesale and retail, prices and usage on at least a daily basis, and sources of power provided by the co-op.

The proceeding has been designated Project No. 2008-TX164-0001, Proceeding to Consider and Determine Whether to Implement the Federal Ratemaking Standards for Integrated Resource Planning, Rate Design Modifications to Promote Energy Efficiency Investments, Consideration of Smart Grid Investments, and Smart Grid Information pursuant to 16 U.S.C. § 2621(d)(16), (17), (18) and (19) as amended by Pub.
